Food machine

SV380 多功能包馅机

Multi-functional Encrusting

Product Specifications

Engineered for demanding applications, the SV380 Multi-Purpose Encrusting Machine is specifically designed for large products, dense fillings, dry ingredients, and complex formulations. Developed through years of continuous refinement, the machine provides enhanced process stability and reliable performance for products that exceed the capabilities of conventional encrusting systems.

Its optimized feeding and forming technology minimizes dough damage while maintaining excellent output performance. Flexible weight adjustment and compatibility with a wide range of attachments and molds enable manufacturers to produce diverse products with maximum versatility and consistent quality.

Product Introduction

Product Dimension	135*100*170cm	Power	3.0KW
Net Weight	450kg	Production Capacity	60-80pcs/min
Voltage	220VAC	Finished Product Weight	8-1000G

Available Optional Fittings

Multi-Layer Filling System

Expandable to support customized multi-dough and filling combinations.

Forming Attachments

Adapts to different product textures and ingredients for optimal shaping results.

Top & Bottom Flour Dusting Unit

Provides top and bottom flour dusting for sticky products, ensuring smooth handling and improved texture

Solid Ingredient Inserter

Provides accurate insertion of solid ingredients for consistent product quality.

Processing Range

Shanghai Longyu Eletro-Mechanic Technology Co., Ltd
