SV620 冷冻切片曲奇机

Frozen Slice Cookie Machine

Product Specifications

Designed for premium frozen sliced cookie production, the SV620 combines slicing and automatic tray loading in a single system to reduce manual handling and ensure consistent product presentation. Interchangeable molds provide flexibility in product size and slice thickness, while the inclined slicing design enables gentle product transfer and orderly tray loading.

Ideal for products such as cranberry cookies and other specialty sliced varieties, the SV620 offers reliable performance and easy integration with tray ovens and continuous tunnel ovens for efficient, high-capacity production.

Product Introduction

Product Dimension	280*140*125cm	Power	3KW
Net Weight		Production Capacity	0-25 row/min
Voltage	220VDC	Finished Product Weight	5-40g

Available Optional Fittings

Processing Range

Forming Attachments

Adapts to different product textures and ingredients for optimal shaping results.
