Sesame Ball Production Line

隆豫机器人（浙江）有限公司

Production Line Introduction

Sesame balls are traditional fried products known for their crispy exterior and chewy texture. Uniform size and filling distribution are essential for consistent product quality. LONGYU provides reliable production solutions that help manufacturers improve productivity and ensure stable output.

Product Parameters

Product Images	Product Name	Model No.	Technical Specifications	Features
	First-generation multi-function filling machine	SV208	Machine dimensions: 168 × 68 × 130 cm Production speed: 0–80 pieces per minute Power: 1.35 kW Voltage: 220 V Product weight: 10–250 g Machine weight: 280 kg	Interchangeable cutters and molds enable 50–100 product variations with easy and quick changeovers.
	Turntable flour-coating machine		Machine dimensions: 190 × 84 × 102 cm Machine weight: 190 kg Voltage: 220 V Power: 0.75 kW	Automatically coats products with various materials such as sesame, coconut and breadcrumbs, with excess powder removed and seamless transfer to downstream equipment.
