Wagashi Production Line

隆豫机器人（浙江）有限公司

Production Line Introduction

Wagashi represents traditional Japanese confectionery known for its delicate appearance and refined texture. Different recipes and shapes require flexible processing and precise forming technologies. LONGYU provides customized production solutions that help manufacturers achieve consistent quality and efficient large-scale production.

Product Parameters

Product Images	Product Name	Model No.	Technical Specifications	Features
	Third-generation multi-function filling machine	SV380	Machine dimensions: 135 × 100 × 215 cm Weight range: 8–1000 g Production rate: 20–80 units Voltage: 220 V Power: 3.5 kW	Designed for chunky fillings with tight sealing and precise filling placement. ,
	Flour-dusting machine	SV303F	Machine dimensions: 120 × 80 × 130 cm Voltage: 380 V Power: 0.6 kW	Applies a thin, even coating of flour to the product surface.
	Flour-suction machine	SV303X	Dimensions: 120 × 80 × 130 cm Voltage: 220 V Power: 2.2 kW	Recovers excess flour for reuse, reducing waste.

Product Images	Product Name	Model No.	Technical Specifications	Features
	Bottom-loading palletiser	SV450S	Machine dimensions: 270 × 72 × 140 cm Voltage: 380 V Power: 0.75 kW Machine weight: 300 kg	Designed for soft, sticky products with automatic tray loading to prevent deformation.
